Student Reviews - Institute

The washrooms are not clean. no sufficient amount of water . canteen food is disgusting. institute needs to install ac in computer labs.

Water crisis like always there is shortage of water supply in the washrooms.no clean washrooms . lab instruments do not work . need ac ,fans are not enough at least in labs. canteen food is disgusting .no chairs in canteen. the events should be organised frequently,the one which can benefit us and can be fun.
teachers are good but again not all

Some complaints about the institute.
college lags a ground for sports and activities
infrastructure is good but not the ventilation. some classes are suffocating
needs to get good computer setups for it department unlike old crt monitors that the college has. due to such infrastructure need of ac is high.

Please clean the washroom. washroom water supply sometime does not work. instruments of lab are not working properly . lab are not advance level. account department is very rude . they does not speak properly when child is in trouble. there is no area in canteen to have lunch. in classroom, fan does not work properly .

Washrooms are never clean and there is also shortage of water supply. the instruments in the lab doesnt work properly. seats in seminar hall are broken. canteen needs to be improved. fans in classroom do not work properly. the events organised are not beneficial.

My college name is rgit. i love my college a lot. my college is very big but there is no ground for any sports activity, so i request the authority to look forward into the sports activities. otherwise its the bestest college for the studies. and if possible make the whole campus ac. thank you!

xyz

your sincearly

Need to have some more facilities and a college ground

Extremely dirty toilets facilities

class rooms are too dark their should be more ligths in rooms

and mostly drinkable water is not available

Cleanliness should be maintained in toilets and other curricular activities such as sports and all should be carried out

---

This is the excellent institute.

A decent institute :)

Good

Infrastructure needs to be upgraded for sure

Good
