Student Reviews

Not able to explain the topics to us and usually makes mistakes while explaining.

Does not know in depth knowledge of the subject. always writes every program by seeing into the notebook. mostly talks in tapori language.

He needs to teach by taking more examples. the infrastructure of oopm lab is not satisfactory (some of the pcs dont work).i would recommend instead of assignments we would like to have projects excl

Not so much interactive and sometimes fail to help us with the questions like the submission dates.

Has the depth of knowledge but cant explain well enough.
