MANJARA CHARITABLE TRUST

RAJIV GANDHI INSTITUTE OF TECHNOLOGY, MUMBAI

DEPARTMENT OF COMPUTER ENGINEERING

SEMESTER : 7
Year : 2019 Div : A

Student Reviews - Institute

Good

The institute can provide better facilities to students including clean bathrooms, and feedback should be conducted between semesters and not just at the end.

Water problems

age old computers and equipment

lots of assignment and experiments which has nothing to do with knowledge, just a copy paste things

The mid term submission should be removed and instead time gap between mid-term 1 and mid-term 2 is very less.

Time gap between unit test1 and unit test 2 was quite less. no water in the enitre college.

The institute towards student welfare. it is currently failing at this.

An overall good college to study and the faculty of comps is extremely good towards students just a bit of delay in submissions.

Very little attention drawn towards practical knowledge for students. hardly any opportunity towards the fundamental or industrial growth for the students. resources like the computers and the internet facilities must be improved for the departments and especially for the computer department.

Cons :-

no proper drinking water facility

needs to improve computer labs (i.e at least i5 processor ,8gb ram)

canteen is disguisting

pros:

training and placement cell is great and well organized

Fans not working properly . no proper ventilation. sometimes the level of suffocation goes above the level of patience. toilets are not cleaned daily. fans should be proper in each class.

The first mid-term test could be held earlier so as to have sufficient time between the two mid-term tests. usually it gets super hectic after the first mid-term owing to submissions, practicals and the mid-term test two approaching.

Lab systems not updated , no proper sanitation facility , lack of working water purifiers

---

The department is not at all student friendly. there is hardly any relation between student and teachers. the department also does not give any opportunity for exploring new ventures or challenges. most of the teachers dont have time to take care of students time. the department should strongly start thinking about students as a whole.

The mid semester submissions are too stressful

Washrooms are too dirty

Needs some serious funds and a new approach to change the institution.
