Student Reviews

Very nice professor.
Teach good but always say by giving examples and do more activity which is not necessary and including in the course and has a 2 sided face where he says ill give question bank and in the end he says
2 sided face where he says he he will give a question bank and in the end he says is not in the rule
Teach good but teaching by examples. they are not talking about proper topics which are included in syllabus. teaching contents are not sufficient.
No interest was developed in this subject. poor
He never teaches about subject instead talk about something else only. demotivate student
