Student Reviews

Please think from the student side and please appriciate the hard work of students.

Explaining and teaching can be improved, explain the topics in hindi, using english is not mandatory

Highly not recommended for logical subjects like electromagnetism

Sir needs to be kind and supportive and also he should change the way of teaching. also right from starting not a single tutorial is been checked and returned yet

Sir should elaborate things more

while teaching sir just goes on writing on board without explaining which is written .

Gives assignments on the 11th hour and confuses about what they are

Can explain concepts of em way better, should have more control on class

Very doubtful
