Overall Average :76.67%

#### **Student Reviews**

### Respected sir,

i think first of all it is very important to develop an adequate amount of interest related to the subject among the students so that they get more and more involved into it. the lect

Excellent faculty and has great knowledge but need to maintain more discipline and command over class

Needs to teach with more numericals and does not deviate from lessons. need to give more examples

Professor waste our practical time often sits idle during practical sessions

Need to improve the practice of the sums. most of the time faculty goes out of the way and deflect the subject there is no proper arrangement of the topic during the lecture.

Need to communicate with students.provide question bank

Need to be strict with students
